

LOCAL NEWS.

COUNTY SCHOOL BOARD.—The District School Trustees of the several districts in Alexandria county, met at the Superintendent's office in this city, this morning at 9 o'clock, the County Superintendent, Geo. W. Under, presiding. Present: Geo. W. Under, Geo. W. Under, Jr., John Slater and John R. Johnston, from Arlington District, George R. Adams, Garrett B. Wilson and Harvey Bailey, from Washington District, Henry W. Feby and George W. Under, Col. R. E. Withers, of Lynchburg, agent for the University Publishing Co., was also in attendance, and a telegram was received from Maj. Jed Hotchkiss, of Staunton, agent for the "Select Series," stating that he had received notice of the meeting too late to take the cars for Alexandria, or that he, too, would have been present.

Mr. Adams suggested that in Arlington district and he thought in Jefferson also, the same books had been purchased for the school which were used in Alexandria and that any change would involve expense. The Col. Withers, who had been invited to give his views on the subject, replied that the University Series, as a whole, were more than a dollar cheaper for each pupil, and that as 80 per cent of the counties had already adopted it, the books would, probably, be made the only series to be used after three years. Most of the trustees, who had had schools under their jurisdiction, stated the preference of their teachers for McGuffey's readers and Davies' arithmetics, and, on motion of Mr. Under, these were unanimously adopted.

Some remarks were then made by Colonel Withers and the County Superintendent about the Geographies, when motion of Mr. Johnston, Maury's Geographies were adopted.

Col. Withers then made some further conversational remarks about the University Series, in reply to interrogatories from Mr. Adams and others, and Mr. Feby moved to reconsider the vote by which books had been adopted, with a view to moving the adoption of the whole University Series, when motion the vote stood: Ayes, Messrs. Johnston and Feby 2; noes, Messrs. Adams, Wilson, Bailey, and Under, 4; not voting, Mr. Slater.

In relation to Grammars, Col. Withers stated that he did not present either of the competing books, but replied to a question that Ballou's had been adopted by a majority of the counties. The Superintendent said that Messrs. Blackburn and Beach both of whom were using Harvey's, thought very highly of it, and that most of the public school teachers in Alexandria liked it; whereupon it was adopted. He, also, urged the adoption of McGuffey's Speller, contending that the Speller and Reader should be of the same series, in which view Col. Withers concurred, and that Speller was adopted.

After a statement by the Superintendent of the condition of the finances, as far as reports had been made to him, by the County Treasurer, the meeting adjourned sine die at 10 o'clock.

INJUNCTION CASE.—In Chambers yesterday, as briefly mentioned in the Gazette, after hearing the argument of the counsel upon both sides, Judge Underwood postponed until September 5th the further consideration of the application of the Southern & Atlantic Telegraph Co. for an injunction restraining the O. & A. M. & R. Co. from removing from their lands the poles and wires of the Southern & Atlantic Telegraph Co., which have been placed upon the Railroad Company's lands without their consent.

The S. & A. Co. maintain that they occupy the land under the authority of an act of Congress of 1866, which act they claim authorizes them to occupy the lands of any Railroad Co. which may have been designated by Congress as a post road, without the consent of such road, or the payment of compensation for the use of the lands.

The O. & A. M. & R. Co. claim that the act of Congress never contemplated taking the land of a Railroad Co. without paying a just compensation therefor; and further, that such an act would be a clear violation of the 5th article of the amendments to the Constitution of the United States, which declares that private property shall not be taken for public purpose without just compensation.

MAYOR'S OFFICE.—Wm. Knorr, from Washington, for selling stencils without a license, was dismissed with a reprimand.

MAGISTRATES' OFFICE.—Warrants were issued for the arrest of Philip Day and Jordon, charged with an assault upon Armistead Morton, all colored.

NIGHT REPORT.—Night cloudy and rainy until about eleven o'clock when it cleared off. There were no disturbances nor any arrests. There were no prisoners or lodgers at the station house.

LOST CHILDREN.—A little boy and girl, children of Mr. William Harris, and a little boy, child of Mr. Thomas Chauncey, who live on the lower end of South Water street, wandered away from their homes yesterday evening, and did not return until nine o'clock last night, when they were brought back by a colored woman named Susan Pace, who stated that they had been brought to her house by a man named John McKenney, who had found them near the railroad bridge on the Washington Turnpike. During their absence bells were rung in all quarters of the city, and many persons were searching for them.

BOAT RACE.—A skulking match was decided at seven o'clock yesterday evening. The course was from Fishpond around a stake boat on the opposite Maryland flats and return. Four boats were entered: the Spy, by Neil Murphy; the Milk Boy, by Pat Duffee; the Four Boys, by John Penn; and the White Squall, by Will Jones. The Spy won in 11 minutes, followed by the Milk Boy in 11 minutes. The Four Boys and White Squall when half way down the river were withdrawn, and were towed back. The judges were Messrs. Buckley and Conklin.

REMARKABLE.—A gentleman living on Royal street, between King and Prince has a bantam hen which lately hatched a brood of terrapins from the eggs of an animal of that species. The same hen since then commenced laying in a pigeon box, but her nest has been taken possession of by a male pigeon, which is so persistent in its efforts to produce squabs out of bantam eggs that it will not leave the place it has usurped for a moment, and has to be fed and watered there in order that it may not perish.

ANOTHER BREAK IN THE CANAL.—Another break has occurred in the Chesapeake and Ohio Canal; three within as many weeks; each larger than its predecessor, and all at the same place—Five Mile Level. Of course navigation on the Alexandria Canal is again suspended, and the reception of coal at its port again discontinued. The boatsmen are by no means usually mouthed in their expressions concerning the repeated breaks, and assert with earnestness that other than physical agencies are at work in causing them.

CAMP MEETING.—It will be seen by the notice in to-day's Gazette, that the Watford M. E. Camp Meeting will commence to-morrow on the grounds, one and a half miles from Watford, in Loudoun county. Conveyances will take persons from the railroad depot to the grounds.

SOLDIER'S REVIVAL.—The soldiers at Fort Whipple, Va., belonging to the U. S. signal service, are having a religious revival at that camp in the open air, which is largely attended.

THE NEW MARKET HOUSE.—It is understood that negotiations are now in progress, and will probably be concluded to-morrow, for the sale of the two thousand shares of the common stock of the O. & A. R. Co. owned by the corporation, and that the sum to be realized to the city therefrom, to join with the \$10,000 insurance money, and the five thousand dollars worth of material on hand, will be amply sufficient to meet the expenses to be incurred in the erection of the new Market House according to the plan of Class, adopted by the City Council.

MEETING OF THE DIRECTORS OF THE O. & A. M. & R. Co.—A meeting of the Directors of the O. & A. M. & R. Co. is to be held at Rawley Springs on Friday morning, when it is expected that a resolution will be passed calling a meeting of the stockholders of the company at an early day, for the purpose of determining the expediency of purchasing the interest the State holds in the road. Such of the directors as live here will leave in the morning, and it is expected that there will be a full board.

BREVETTES.—The Thermometer, at noon to-day, in this office, stood at 88°.

The fine new brick store, now in process of construction, corner of Market Alley on Royal street, is to be occupied by Mr. F. G. Swaine. Lime is good for many purposes, especially for gutters and other places which ought to be "cleaned and kept clean."

DOGS.—The arrest of parties for keeping dogs without license, commenced yesterday, and has had the effect of inducing many persons who had neglected to secure the requisite medals to go to the Auditor's office and buy them. Of all the dogs in town but 406 wear the proper badges.

WATERMELONS.—Watermelons continue to arrive in large numbers and stands for the sale of them have been opened at Fishpond and King street wharf. Prime ones sell at \$12 per hundred and cullings at from \$5 to \$6 per hundred.

CHURCH BELL.—The old bell of the Second Presbyterian Church, cast in Boston in 1840, was taken down yesterday, and will be sent to Troy N. Y., to be recast.

SHAMROCK.—A veritable shamrock or trinity clover is growing at the mouth of the alley opening upon Royal street between King and Prince streets.

TELEGRAPH NEWS.

(DISPATCHES TO THE GAZETTE.)

FOREIGN NEWS.

LONDON, Aug. 8.—A meeting was held at Heidelberg, Sunday, to take measures for the foundation of a church German. Forty delegates were present from various parts of Germany, Austria and Switzerland. A committee was appointed to draw up a constitution for the new church. Its main points will be the principles of the Council of Constance of 1514, the subordination of the Pope to the council, separation of the Church and State, no papal laymen in the management of the church, free election of Bishops, communal elections of pastors, and the modification of the confessional. The delegates are divided in opinion as to whether the new church should acknowledge the primacy of the Pope. The committee were instructed to submit their report for ratification at a meeting to be held at Munich in September.

VERSAILES, Aug. 9.—A bill will be prepared by the Government and introduced into the Assembly to bring the trials of the Communists to a speedy termination. The Government will suspend for the present the discussion of the subject of taxes on raw materials and will in lieu thereof increase the existing direct taxes. The Prussian troops, acting under telegraphic orders from Berlin, are to-day evacuating the city of Troyes.

LONDON, Aug. 9.—Cover, a released Fenian prisoner, was wounded in the riot at Phoenix Park Sunday, and is not expected to survive. The Prince of Wales left to-day for the continent to join the Princess at Kissingen.

ELNBERG, Aug. 9.—The National festival in celebration of the centenary of Sir Walter Scott, which by preconcerted arrangement, is taking place to-day instead of the 15th instant, the anniversary of the birth of the great novelist, is an eminent success. The city is overwhelmingly full and the hotels and lodging houses are compelled to turn away large numbers of patrons. There are profuse decorations in all the streets of the city, and flags and flowers and busts of Scott are seen everywhere. There were some illuminations last night. The assemblage at the banquet this afternoon will include a number of Lords, Lieutenants and Commanders of counties, nobles, and very many of the most prominent men in art, science and literature. Deputations will be present from the corporations of several towns of north England and also from the Caledonian societies of London and Liverpool. The speculative society of the university of which Walter Scott was Secretary will be represented by a deputation.

Accommodations will be made for foreign visitors by gentlemen from the United States and other countries deputed to attend to the celebration. Rev. Dr. Stanley, Dean of Westminster, will take part in the proceedings. Sir J. Noel Paton has executed and presented to the committee an elaborate design for a memorial card for the celebration. The card is to be presented to each member on retiring in exchange for a ticket of admission with a view of their presence at the festival. The celebration at Glasgow to-day is also a very interesting and noteworthy affair. Centenary observances in other portions of the United Kingdom will be held on the 15th instant.

MADRID, August 9.—The Imperial newspaper denies an authority that there is any intention on the part of the Government to impose a tax upon Spanish bonds held by persons outside of the Kingdom.

PARIS, Aug. 9.—The police of the arrondissement Batignolles have received a hint from the Versailles government to moderate their zeal in the arrest of communists.

From New York.

NEW YORK, Aug. 9.—A Paris letter says: "A report on eleven contracts for the revictualing of Paris immediately after the siege has been presented to the National Assembly. The contracts made are twenty-nine in all. They amount to \$17,312,365, but fortunately this sum of money is very far from representing the real engagements of the Treasury, because nine of these contracts were simply annulled. These were for \$5,991,600, and twelve were reduced to \$7,614,629, in other words a reduction of \$13,606,229."

Charles E. Stanley, arrested on the charge of misplacing a switch on the Newark and New York railroad July 8th, by which the trains collided was discharged, but the papers go to the grand jury.

Ex-inspector Berryman has made serious charges against inspector Mathews, one of which accuses the latter of forging the former's signature to a certificate of the stenograph North America. This on examination proved unfounded. Berryman also exhibits a list of six or eight steamers which at various times were refused certificates by him, but received them from Mathews. He asserts that the latter is actuated by interested motives incidentally, also his statements tend to show that great demoralization exists in the inspection service. His testimony appears lightly regarded by other inspectors, who refer to his quarrel with Mathews and the fact that several charges were preferred against him, (Berryman) at

Washington as indications that the present statements are made for malicious and revengeful purposes.

Mr. Stratton, U. S. Inspector, yesterday made a thorough examination of the boiler of the Station Island ferry boat Northfield, and declared it sound and in better condition than nine-tenths of those now in use. By order of Captain Low he forbade the engineer to carry a pressure higher than twenty pounds and to set the safety valves at that point. The engineer declared that it was impossible to enter the slips with that amount on account of the tide and was very indignant because the inspector would not allow him at least twenty-five pounds.

A new boiler has been ordered for the Westfield. President Grant has accepted an invitation to visit Patterson, N. J. John Watson, another of the Westfield victims, died yesterday. Specie shipped \$112,000.

Poisoning Case.

LONDON, Ohio, Aug. 8.—Having been adjourned on account of the absence of two jurymen the inquest in the Buffenbarger poisoning case will be begun by coroner Chastler to-morrow. Mr. and Mrs. Colburn, (nee Buffenbarger) are here at the old place, where I saw them this evening. They are confident of success and have good reason for being so. Feeling here is all in their favor, the majority thinking the poison was injected after death by the malice of Thompson, the prosecuting witness, who has not up to the present made his appearance. The highest legal talent of the State is arrayed on Colburn's side, Judge Harrison and Clarence Olds, the greatest criminal lawyer of the West. At the inquest to-morrow, Prof. Wornley, of Columbus, will be examined on the presence of poison by absorption, and a new question in medical science raised.

Election.
ST. LOUIS, Aug. 8.—The election to-day for county Judges and auditor passed off quietly. Charles Steck, democrat, for presiding Justice has 1,500 majority in the city. The County clerk will probably run it up to 1,800. Wm. H. Heek (Rep.) for auditor, has between 700 and 800 majority in the city. Of the district judges from the city John H. Nisse and Phillip Streunell, Republicans, are elected, and John Tenney and John Bussey, democrats. There are not enough returns been received from the county districts to determine the result, but it is probable Joseph Lyatt, Dem., and Robert Allen, Rep., are elected.

Presidency of Liberia.
NEW YORK, Aug. 9.—The Monrovia, Liberia, Republican of the 10th of May states that the Presidential election took place on May 2d and apparently resulted in the election of Roberts President and Gardner vice President. President Koye maintains, however, that he was elected for four years and the term has not expired. He may dispute the validity of the elections of Roberts and Gardner.

Congressional Delegate.
PHILADELPHIA, Aug. 9.—A special to the New York Tribune from Helena, Montana, dated 8th says, Chaggett, Republican, is elected delegate to Congress by 19,000 majority, a gain of over 2500.

The Markets.
NEW YORK, Aug. 9.—Stocks steady and quiet. Gold heavy at 114 1/2. Money easy at 2 1/2. Grain sixes 64; do. new 72. Flour dull and declining. Wheat quiet and unchanged. Corn dull and heavy.
BALTIMORE, Aug. 9.—Virginia sixes, coupon, old, 64 1/2. Cotton nominal; no demand; low middlings 17 1/4. Flour dull. Wheat firm; Ohio and Indiana 135 1/4. Pennsylvania 135 1/4. 40's extra unchanged. Corn scarce and firm; white Southern 77 1/2; yellow do. 76 1/2; mixed Western steady at 75 1/2. Oats active and higher at 45 1/2. Rye quiet and firm at 70 1/2.

Mr. Seward has been nominated by some body as a candidate for next President. Of course, he has, and so have some thirty or forty other people.

DIED.
In Baltimore, August 8th, Colonel HENRY T. GARNETT, of Virginia, aged 69 years.

Men, when they meet upon the Street, and stop to greet.
Always say "have you seen the \$10 Scotch Cassimere Suits at BLONDHEIM'S, corner King and Fairfax streets?"

Most complete varieties of light-colored Pants and Vests.
Blue and Black Frock Derby and Sack Coats.
Also Shirts, Collars, Drawers, Ties, Socks, &c.
Grand opportunity for good goods at low prices at BLONDHEIM'S, 25 1/2
Corner King and Fairfax sts.

The Watford M. E. Camp Meeting will commence on Thursday, the 10th instant. The grounds are well shaded, and very convenient. The railroad will pass all persons coming and going from the meeting at half fare. The grounds are well shaded, and very convenient. The railroad will pass all persons coming and going from the meeting at half fare. The grounds are well shaded, and very convenient. The railroad will pass all persons coming and going from the meeting at half fare.

Rev. Dr. Stanley, Dean of Westminster, will take part in the proceedings. Sir J. Noel Paton has executed and presented to the committee an elaborate design for a memorial card for the celebration. The card is to be presented to each member on retiring in exchange for a ticket of admission with a view of their presence at the festival. The celebration at Glasgow to-day is also a very interesting and noteworthy affair. Centenary observances in other portions of the United Kingdom will be held on the 15th instant.

SPECIAL NOTICES.

Biliousness and Indigestion.—These two complaints are more general at this season of the year than at almost any other. They are closely akin; for biliousness always involves an impaired digestion, and indigestion necessarily an accompaniment of a disordered liver. Happy the man or woman who can boast of a stomach that has never felt the horrors of dyspepsia, and to whom that great secret agent, the liver, has never given pain or trouble. Not one in a thousand can lay claim to entire immunity from irregularity in these organs. How, then, shall they be regulated? Not by powerful cathartics, alternated with ordinary stimulants, but by a medicinal invigorant, like Hostetter's Stomach Bitters, which combine, in due proportion, the tonic and the alternative principle. Wherever there is a church, a school-house and a general store, this famous medicine may be procured. No village merchant finds it prudent to be without it, for it is required for every day's use. The working man buys it because it increases his capacity for toil, and is followed by no reaction. The effect of the salubrious roots, herbs, etc., of which it is composed, diffused through his system by the pure stimulant which forms the basis of the Bitters, is most healthful and invigorating. The scholar, the merchant, and, in fact, all men whose minds or bodies, or both, are in constant exercise, will derive benefit from its use. To persons of sedentary habits it serves, in some measure, that activity in the circulation which is obtained by physical exertion, and is the best known remedy for constipation.

Ask for Hostetter's Stomach Bitters, and do not be deceived into purchasing any of the imitations and frauds sometimes offered in its stead.

El Vino Catalina.—The announcement that has been generally heralded throughout the country that an American company has again commenced importing this celebrated Wine Tonic is a matter of no small importance, and will be hailed with joy by all those seeking a pure, pleasant and refreshing stimulant who need a pure, pleasant and refreshing stimulant. It is a matter of no small importance, and will be hailed with joy by all those seeking a pure, pleasant and refreshing stimulant who need a pure, pleasant and refreshing stimulant.
